Nemeth Code Update to Rule XVII §119

Function Names and Their Abbreviations

Approved August 2014

The BANA Mathematics Braille Technical Committee recommended and the BANA Board approved the following correction to the 2007 Nemeth Update in August 2014. This change is effective immediately.

A fraction indicator does not require an empty cell following it. This correction removes the space following the fraction in Example (7) on page 122 in the Nemeth Code book.

Rule XVII—Function Names and Their Abbreviations

§119. Spacing with Function Names and Their Abbreviations

c.

$$(7) \quad \frac{1}{\cos} - \cos = \tan \cdot \sin$$
